

# Introducing an Apprenticeship Management System (AMS) based around **your** needs.

Managing apprentices can be confusing on your own. Partner with LASCE, and let our expertise and experience work for you and your employees.

## **Apprentice Tracking**

Track training and professional progress through the full career-ladder in a single simple, yet powerful, interface.

## **Apprentice Management**

Customize the department, job position, and overall hierarchy of your company, while checking and verifying employee certification statuses .

## **Apprentice Mentoring**

Direct access to retention specialists, instructors, and mentors to assist with apprentices' career and training needs.

## **Apprenticeship Experts**

Learning Alliance School of Continuing Education (LASCE) is a rapidly expanding Registered Apprenticeship Program Sponsor in both the state of Florida and at the national level. As an apprenticeship program sponsor LASCE is serving under represented communities through career development pathways in information technology, advanced communications, and renewable energy.

LASCE is continuously seeking to increase these opportunities to new communities through on-boarding additional participating employers in these spaces.

## **Apprentice Management - The Right Way**

Apprenticeship management can be a daunting, difficult, and time-consuming task. Luckily, Learning Alliance's Apprenticeship Management System helps to streamline the process by allowing you to automate the learning lifecycle of your apprentices and providing them the career ladder they need to progress within your organization. Our system uses a series of sophisticated, yet easy to administrate, automated rules to simplify the complete process of apprenticeship management.

# ■ The LASCE AMS - More than just software

A corporate apprenticeship program requires a quality learning management system (LMS), but that alone is not enough. That's why Learning Alliance and its LASCE division has developed a multi-faceted program based not only on our state-of-the-art technology, but also the experience and knowledge of a highly trained and organized support staff. LASCE's collection of retention Specialists, instructors, curriculum designers, and technical support representatives will work with you, and behind the scenes, to ensure your apprenticeship program is a success.

To build a complete solution, we started with great LMS tech but didn't stop there. We also added powerful collection of employee management tools and the hands-on assistance of dedicated support staff. These value-added features are what sets the LASCE AMS apart.

- Related Technical Instruction.
